

# The 5/6 Times<sup>®</sup>

## PHOTO COMP

Well the photo comp is over. And we have a winner, Brandon, the only person who entered. The winning photo will be posted on our website

## MATHS SUM OF THE WEEK

5+5

Hello, and welcome to the 5th issue of the 5/6 times!!!!

To mark the milestone for the 5th issue we decided to do a special issue for the 5th milestone. This issue will be the tech issue. Well, the name says it all! We will talk about everything technology. This includes Computers, Inventions, Video games and of course, the iPod. The list just given is only part of the rather long list of technology. On behalf of the 5/6 times, we hope you enjoy this 5th milestone issue.

## Animal Crossing: Let's Go to the City!!!!

Animal Crossing is a relaxing game where you can buy your own house, create Bells (money), Design your own clothes, decorate your house, go fishing, bug catching or even go digging for fossils!

The game is very similar to its Nintendo DS cousin, Animal Crossing: Wild World, but the game has some brand new features such as going to the city to stretch your legs, and buy clothes, get your hair done, go to the cinemas etc. You can also meet with your friends over a Wi-Fi channel. It also can come with a new accessory, the Wii Speak. It's a microphone that enables you to talk to your friends... literally!!! You can also upload your DS Wild World game onto the Let's go to the City game and even use it as a suitcase to carry your files on Let's go to the City to a friend's house!

You start off with a small house, and you renovate it over time. The store, Nook's Cranny, is run by a person called Tom Nook. You can go there to buy furniture, medicine, wallpaper, flooring, paper etc. You can also sell your items to him, and make money. He

also makes his store BIGGER and BETTER over time.

There is also a museum in your town as well. There you can make starry constellations, donate fossils, fish, and bugs, and on Saturdays from 8 o'clock till 9 o'clock you can see the FAMED K.K Slider in the Cafe!

You can go to the local clothes shop and buy clothes, or even design your own!

Occasionally, your village will have some sort of party to celebrate Easter, Halloween, Christmas, New Years Eve and much more!

Animal Crossing has all sorts of genres and has a very flexible style. I highly recommend it to girls, and I suggest boys try it as well!

## iPod Nano

The iPod Nano 4 Gen was officially released on the 9th of September, 2009. It still sustains its narrow form. It has a newly curved aluminium glass screen and shell. Its battery apparently lasts for 24 hours of music and 4 hours of video playback.

It also has new colours such as black, silver, light blue, purple, yellow, green, red, orange and pink. It has a total of 9 colours from which it gets its name - Chromatic. It also has a newly added accelerometer which enables you to switch from portrait to landscape. You can also “shuffle” the iPod by shaking it, thanks to the accelerometer. It also has the new feature ‘Genius’, introduced by Apple on the same day. This feature automatically creates playlists for you. This iPod was not designed for games, but more for a music purpose. Overall it is probably the best value for money in terms of a music player.

The Plumber and his pals are back in this New Mario Multiplayer Game. For years Mario has continued to amaze us with his classic gaming. Without him Nintendo would not be where it is now. Mario has continued to rack up millions with great fun games like Super Smash Bros (8.5 million) and Super Mario Galaxy (8 million). When Nintendo announced this brain racking game Nintendo Fans were left stunned in amazement.

New Super Mario Bros is a masterpiece. With classic side scrolling (the screens are always moving) and amazing graphics what's not to love. The multi player guaranteed to be a smash hit, I mean who doesn't like the utter chaos as 4 players desperately try to reach an end of a level while grabbing and lobbing their “friends” into bottomless pits. Perfect Super Mario Feel.

## Sports

### Rounders

*Last week the 5/6's went to Rounders. The Day started well for the year 6's winning the first game but with a biased ref helping the other team win the next game. But with Mr Hills year 5's it was a different story they won the first and drew the second game so we are looking good. For the other year 5's won one and lost the other.*
